Report on Review of Interim Condensed Consolidated Financial Statements
To the Board of Directors of
Alia - The Royal Jordanian Airlines Company (Royal Jordanian)

Amman - Jordan

#### Introduction

We have reviewed the accompanying interim condensed consolidated financial statements of Alia - The Royal Jordanian Airlines Company (the "Company") and its subsidiaries (together referred to as "the Group") as at 31 March 2023, comprising the interim condensed consolidated statement of financial position as at 31 March 2023, the interim condensed consolidated income statement, the interim condensed consolidated statement of comprehensive income, the interim condensed consolidated statement of changes in equity and the interim condensed consolidated statement of cash flows for the three months then ended and explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard IAS (34) Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

### Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Material Uncertainty Related to Going Concern

As disclosed in note (2-2) to the interim condensed consolidated financial statements, the Group's accumulated losses of JD 423.2 million exceeded the Group's capital as at 31 March 2023. Also, the Group's current liabilities exceeded its current assets by JD 180.3 million as at 31 March 2023. These events or conditions indicate that a material uncertainty exists that may cast significant doubt about the entity's ability to continue as a going concern. According to Article (266) of the Jordanian Company's Law No. (22) for the year 1997 and its amendments, if the accumulated losses of the Public Shareholding Company exceeded 75% of its capital, the Company shall be liquidated unless the General Assembly of the Company issues a decision on its extraordinary meeting to increase the Company's capital or to deal with the Company's losses.

On 18 May 2022, the Prime Ministry of Jordan resolved in its resolution number (7056) to authorize the Ministry of Finance to proceed with further procedures to increase the Company's capital by JD 70 million over two phases. An amount of JD 35 million was received during May 2022 and the remaining amount was received during August 2022. Capital increase procedures were not completed up to the date of the interim condensed consolidated financial statements.

The Company received a comfort letter from the Ministry of Finance (the Jordanian Government's representative), stating that the Government is in favor of continuing to support the Company's operations in the future. Our conclusion is not modified in this regard.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS (34).

The partner in charge of the review resulting in this auditor's report was Ali Hasan Samara; license number 503.

### 1. GENERAL

Alia - The Royal Jordanian Airlines Company (Royal Jordanian), the "Company", was registered as a Jordanian Public Shareholding Company on 5 February 2001. The Company's head office is located in Amman - Jordan.

The Company's objectives are to undertake scheduled air-transport activities from and to the Kingdom and to carry out the handling for aircrafts that land in and take off from the airports of the Kingdom.

The interim condensed consolidated financial statements were authorized for issue by the Board of Directors in their meeting held on 3 May 2023.

# 2. BASIS OF PREPARATION OF THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The interim condensed consolidated financial statements are prepared in accordance with International Accounting Standard No. (34), Interim Financial Reporting.

The interim condensed consolidated financial statements do not contain all information and disclosures required for full financial statements prepared in accordance with International Financial Reporting Standards and should be read in conjunction with the Group's annual financial statements as at 31 December 2022. In addition, results of the three months period ended 31 March 2023 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2023.

The interim condensed consolidated financial statements have been presented in Jordanian Dinar which is the functional currency of the Group. All values are rounded to the nearest thousands (JD 000) except when otherwise indicated.

### 2-1. Changes in accounting polices

The accounting policies used in the preparation of the interim condensed consolidated financial statements are consistent with those used in the preparation of the annual consolidated financial statements for the year ended 31 December 2022 except for the adoption of new amendments on the standards effective as at 1 January 2023 shown below:

### **IFRS 17 Insurance Contracts**

In May 2017, the IASB issued IFRS 17 Insurance Contracts (IFRS 17), a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, IFRS 17 will replace IFRS 4 Insurance Contracts (IFRS 4) which was issued in 2005. IFRS 17 applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply.

The overall objective of IFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in IFRS 4, which are largely based on grandfathering previous local accounting policies, IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. The core of IFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach).
- A simplified approach (the premium allocation approach) mainly for short-duration contracts.

This standard is not applicable to the Group.

# Definition of Accounting Estimates - Amendments to IAS 8

In February 2021, the IASB issued amendments to IAS 8, in which it introduces a definition of 'accounting estimates'. The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, they clarify how entities use measurement techniques and inputs to develop accounting estimates.

The amendments are not expected to have a material impact on the Group.

Disclosure of Accounting Policies - Amendments to IAS 1 and IFRS Practice Statement 2 In February 2021, the IASB issued amendments to IAS 1 and IFRS Practice Statement 2 Making Materiality Judgements, in which it provides guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments are not expected to have a material impact on the Group.

# Deferred Tax related to Assets and Liabilities arising from a Single Transaction - Amendments to IAS 12

The amendments to IAS 12 Income Tax narrow the scope of the initial recognition exception, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences such as leases and decommissioning liabilities.

The amendments are not expected to have a material impact on the Group.

# 2-2. Fundamental Accounting Concepts

The interim condensed consolidated financial statements have been prepared on the assumption of going concern. However, as disclosed in note (3) to the interim condensed consolidated financial statements which shows how the Group's operations are recovering after the negative impact of Covid-19 and how it is still being negatively impacted by the effect of the Russian-Ukraine conflict on fuel prices, the Group's accumulated losses of JD 423.2 million exceeded of the Group's capital as at 31 March 2023. Also, the Group's current liabilities exceeded its current assets by JD 180.3 million as at 31 March 2023. These events and conditions indicate that a material uncertainty exists that may cast significant doubt about the entity's ability to continue as a going concern. According to Article (266) of the Jordanian Company's Law No. (22) for the year 1997 and its amendments, if the accumulated losses of the Public Shareholding Company exceeded 75% of its capital, the Company shall be liquidated unless the General Assembly of the Company issues a decision on its extraordinary meeting to increase the Company's capital or to deal with the Company's losses.

On 18 May 2022, the Prime Ministry of Jordan resolved in its resolution number (7056) to authorize the Ministry of Finance to proceed with further procedures to increase the Company's capital by JD 70 million over two phases. An amount of JD 35 million was received during May 2022 and the remaining amount was received during August 2022. Capital increase procedures were not completed up to the date of the interim condensed consolidated financial statements.

The Company received a comfort letter from the Ministry of Finance (the Jordanian Government's representative), stating that the Government is in favor of continuing to support the Company's operations in the future.

## 3. EFFECT OF COVID-19 AND RUSSIAN-UKRAINE CONFLICT ON THE GROUP

Based on the volume of air travel demand, which is still recovering since the spread of COVID-19 vaccines and the gradual relief of borders restrictions, it appears that the pandemic has ended and daily passenger traffic at airports has reached 2019 levels. However, the ongoing conflict between Russia and Ukraine has created uncertainty regarding the development of the world economy including the airline industry which is presented in the uncertainty of fluctuations of oil prices that represent major part of the Group's costs of flying operations.

As the conflict is evolving, the Group's management will continue monitoring the impact of oil prices' fluctuation on their operations and going concern assessment in order to take the necessary actions and properly address the situation.

# 4. BASIS OF CONSOLIDATION OF THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The interim condensed consolidated financial statements comprise the financial statements of Alia - The Royal Jordanian Airlines Company (the "Company") and the following subsidiaries (collectively referred to as the "Group") as at 31 March 2023:

	Ownership Interest	Country
Royal Wings Company – under liquidation	100%	Jordan
Royal Tours for Travel and Tourism Company	80%	Jordan
Al Mashrig for Aviation Services "Tikram"	100%	Jordan

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement(s) with the other vote holders of the investee.
- Rights arising from other contractual arrangements.
- The Group's voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the period are included in the interim condensed consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it derecognizes the related assets (including goodwill), liabilities, non-controlling interest and other components of equity, while any resultant gain or loss is recognized in profit or loss. Any investment retained is recognized at fair value.

# Shareholders who have a significant influence over the Group

The Government of the Hashemite Kingdom of Jordan presented by Government Investment Management Company owns 86.23% from the Company's shares as at 31 March 2023 (31 December 2022: 86.23%).
